Permis B

Data Scientist with a Master's degree in Applied Mathematics, experienced in building machine learning solutions, statistical modeling, and data pipelines. Strong interest in Generative AI, LLMs, and NLP applications. Familiar with deploying models, automating analytics workflows, and supporting AI-driven product decisions.

I'am Available

Skills

- **Programming & Tools:** Python (pandas, scikit-learn, matplotlib,PyTorch), SQL, R, SAS, GitHub
- **Data Analysis & Business Intelligence:** descriptive analytics, KPI tracking, data cleaning, dashboarding (Power BI, Tableau, Excel)
- **Data Management:** ETL, data quality checks, documentation standards, metadata tracking
- **Cloud & MLOps**: Azure, MLFlow, Docker
- **Machine Learning & AI:** regression, clustering, predictive analytics, NLP, LLMs, Generative AI, predictive analytics
- **Consulting Skills:** stakeholder communication, requirements gathering, report writing, presentation design
- **Soft Skills:** analytical mindset, teamwork, curiosity, autonomy, attention to detail

Work Experience

- **Data Science Intern** + **Permanent contract** – **Dedienne Aerospace, Toulouse** | **Jan 2025** – **Present**
  - Implemented basic NLP text mining on maintenance reports
  - Explored LLM integration with OpenAI APIs for deeper text classification.
  - Automated analytical workflows using Python and MLFlow prototypes, enhancing traceability and paving the way for MLOps integration.
- **Data Analyst Intern** – **Euro Protection, Strasbourg** | **Apr 2024** – **Aug 2024**
  - Conducted customer behavior analysis and segmentation using Python and Power BI.
  - Built automated reports and dashboards for marketing and performance tracking.
  - Collaborated with cross-functional teams to define business metrics and visualize insights.
- **Statistical Analyst Intern** – **Sport & Social Sciences Laboratory, Strasbourg** | **Apr 2023** – **Jun 2023**
  - Analyzed time-series and performance datasets to identify key trends and correlations.
  - Used R and Python for data cleaning, regression analysis, and visualization.
  - Presented analytical findings in structured reports to non-technical audiences.
- **Freelance** – **Data Scientist, Analyst & Statistician (Fiverr)** | **April 2021** – **Present**
  - Delivered micro-projects in data science including LLM-based summarization, sentiment analysis using HuggingFace models, and classification pipelines.
  - Built lightweight web apps using Streamlit for client-facing dashboards. Applied ML models for forecasting, pricing optimization, and A/B test analysis.
- **Sales Advisor** – **Galeries Lafayette, Strasbourg** | **Jul 2022** – **Aug 2022**
  - Managed customer interactions and provided personalized recommendations.
  - Coordinated inventory to improve store performance.

Education

- **Master's Degree (M2) in Applied Mathematics (Statistics) University of Strasbourg** | **Sep 2024** – **Aug 2025**
  Coursework: Data Management, Econometrics, Machine Learning, Business Intelligence, Data Visualization, Optimization.
  Project: Building a predictive dashboard for financial and environmental indicators using Python & SQL.
- **Master's Degree (M1) in Applied Mathematics (Statistics) University of Strasbourg**| **Sep 2023** – **Aug 2024**
  - Developed time series models and forecasts to assess the impact of carbon taxes and climate scenarios on corporate financial performance
  - Manipulated and analyzed large SQL databases, created Python visualizations
  - Used SQL to integrate multiple datasets (internal and external sources) and built interactive dashboards in Python.
- **Bachelor in Applied Mathematics University of Strasbourg** | **Sep 2019** – **Jun 2023**
- **Bachelor's Degree in Economics, University of Strasbourg** | **Sep 2016** – **Jun 2019**
- **French Scientific Baccalaureate**—**Marie Curie High School, Strasbourg (Equivalent to a high school diploma / A-levels)** | **Jun 2016**
  Option Mathématiques

Languages

- French (Native)
- English (C1)
- Italian (Intermediate - B1)
