🚗 Permis B

Data Scientist with a Master's degree in Applied Mathematics and hands-on experience in Machine Learning, NLP, and predictive analytics. Worked on AI-driven solutions for technical maintenance data, including text mining, transformer-based NLP, and workflow automation. Strong interest in Generative AI, LLM applications, and scalable data products in international environments.

I'am Available

Skills

- **Machine Learning & AI:** regression, clustering, predictive analytics, NLP, LLMs, Generative AI, predictive analytics
- **Data Visualization & Analytics :** Power BI, Tableau, KPIs, Dashboards
- **Data Engineering & Data Management:** Data collection, cleaning, structuring, and quality assurance
- **Advanced Statistics:** Bayesian statistics, MCMC, PCA, Hypothesis Testing, Extreme Value Models, Predictive Models, Time Series, GLM
- **Programming & Tools:** Python (pandas, scikit-learn, matplotlib, PyTorch), SQL, R, SAS, GitHub
- **Soft Skills:** analytical mindset, teamwork, curiosity, autonomy, attention to detail

Work Experience

- **Data Science Intern + Fixed term contract – Dedienne Aerospace, Toulouse | From Jan 2025**
 - Developed NLP pipelines to process and structure technical maintenance reports.
 - Explored transformer-based approaches and LLM integrations for automated text classification and entity extraction.
 - Built predictive analytics workflows for maintenance and repair data using Python.
 - Automated reporting and experimentation tracking using MLFlow and Python.
 - Collaborated with operational teams to translate business needs into AI-driven analytical solutions.
- **Data Analyst Intern – Euro Protection, Strasbourg | Apr 2024 – Aug 2024**
 - Conducted customer behavior analysis and segmentation using Python and Power BI.
 - Built automated reports and dashboards for marketing and performance tracking.
 - Collaborated with cross-functional teams to define business metrics and visualize insights.
- **Statistical Analyst Intern – Sport & Social Sciences Laboratory, Strasbourg | Apr 2023 – Jun 2023**
 - Analyzed time-series and performance datasets to identify key trends and correlations.
 - Used R and Python for data cleaning, regression analysis, and visualization.
 - Presented analytical findings in structured reports to non-technical audiences.
- **Freelance – Data Scientist, Analyst & Statistician (Fiverr) | April 2021 – Dec 2024**
 - Delivered micro-projects in data science including LLM-based summarization, sentiment analysis using HuggingFace models, and classification pipelines.
 - Built lightweight web apps using Streamlit for client-facing dashboards. Applied ML models for forecasting, pricing optimization, and A/B test analysis.

Education

- **Master's Degree in Applied Mathematics (Statistics) University of Strasbourg | Sep 2023 – Aug 2025**
- **Bachelor in Applied Mathematics University of Strasbourg | Sep 2019 – Jun 2023**
- **Bachelor's Degree in Economics, University of Strasbourg | Sep 2016 – Jun 2019**
- **French Scientific Baccalaureate—Marie Curie High School, Strasbourg (Equivalent to a high school diploma / A-levels) | Jun 2016**
Option Mathématiques

Languages

- French (Native)
- English (C1)
- Italian (Intermediate - B1)

I'am Available

Interests

- Gaming & Mobile Game Design Analytics
- Artificial Intelligence
- Music, Art, Sports
